Professional Summary

Frontend Developer specializing in React.js with hands-on experience in building responsive web applications. Proficient in JavaScript (ES6+), HTML5, CSS3, and modern frameworks. Certified ITI graduate with proven ability to deliver projects using MVC architecture and strong background in database management.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript, Bootstrap

Backend: Spring Boot, PHP, Java

Databases: MySQL, PHPMyAdmin

Tools & Concepts: Git, GitHub, MVC Architecture, OOP, SOLID, Design Patterns

Design Tools: Figma, Canva

Microsoft Office: Word, Excel, PowerPoint

Education

B.Sc. in Computer Science & AI — 2021 – 2025
Helwan University, Cairo, Egypt | GPA: 3.24/4.0 (Very Good)

Experience

Frontend Development Trainee | Codveda — Aug 2025 – Sep 2025

- Training in modern frontend development technologies including React.js and advanced JavaScript
- Gaining hands-on experience in building dynamic user interfaces and single-page applications

JavaScript Content Developer | Innovatera — Aug 2025 – Sep 2025

- Developed interactive JavaScript slides and educational content for programming courses
- Created comprehensive JavaScript course materials focusing on modern ES6+ features
- Designed visual explanations and code examples to simplify complex programming concepts
- Collaborated with instructional designers to enhance learning experience and engagement

Data Analysis Trainee | Depi — Present – Expected Dec 2025

- Intensive training in data analysis methodologies and data visualization tools
- Learning to derive actionable insights from complex datasets to support data-driven decision-making

Web Development Trainee | Information Technology Institute (ITI) — Aug 2023 – Sep 2023

- Completed 78-hour intensive course in PHP-based web development (Laravel, MySQL)
- Developed full-stack features with MVC framework implementing robust CRUD operations
- Optimized data management processes, decreasing retrieval times by 15%

Projects

Movie Ratings App (React & Open API)| Codveda Training Github Repo

- Developed a responsive React application that fetches and displays movie ratings from Open Movie Database API
- Implemented search functionality allowing users to find movies by title with real-time results
- Designed an intuitive UI with movie cards displaying ratings, release year, and plot summaries
- Utilized React hooks for state management and efficient API data handling
- Enhanced user experience with loading states and error handling for API requests

Graduation Project - Pet Care Github Repo

- Built full-stack platform with pet adoption and AI breed detection (90% accuracy)
- Reduced response time by 40% through optimized API calls
- Technologies: React.js, Spring Boot, MySQL

Vaccine Booking System (Full-Stack) Github Repo

- Developed vaccine management platform using Spring Boot, MySQL, Docker
- Implemented JWT authentication with 100% secure transactions
- Dockerized deployment reduced setup time by 60%

Weather App Github Repo

- Developed responsive React web application fetching real-time weather data
- Implemented API integration and dynamic UI updates using OpenWeatherMap API

Heart Disease Prediction Model Github Repo

- Developed binary classifier with 86% accuracy using clinical dataset
- Implemented K-neighbors & Naive Bayes algorithms using Scikit-learn
- Performance visualization using Matplotlib/Seaborn
